EDUCATION

Western University – Bachelor of Science, Computer Science

Fall 2026

Ivey Advanced Entry Opportunity (AEO)

Bayview Secondary School – Ontario Secondary School Diploma (OSSD)

2022 – 2026

Ontario Scholar · International Baccalaureate Diploma | 98.3% Average | AP Calculus BC: 5, AP CS A: 5

EXPERIENCE & LEADERSHIP

President, FBLC Bayview Chapter

2025 – 2026

Led **200+ member chapter**; provided group tutoring and one-on-one coaching for Coding & Programming competitors.

Placed **1st as an individual over 50+ teams** at CNLC in both 2024 and 2025. Managed executive team across competition prep, chapter operations, and member engagement.

Shad Fellow

Summer 2025

Completed one-month intensive STEAM and entrepreneurship program at Saint Mary's University, focused on collaborative problem-solving, product design, and innovation.

PROJECTS

Drift

SwiftUI · Swift Package Manager · macOS · Vercel

Privacy-first native macOS focus tracker classifying active applications and browser context to identify attention drift. Built SwiftUI dashboard, history timeline, session replay, menu-bar widget, and mini-player experiences for macOS 14+.

Implemented local privacy-scrubbed activity logging and real-time window tracking.

NEASS Journal

Next.js 14 · TypeScript · Tailwind CSS · Prisma · PostgreSQL · TipTap · Vercel

Full-stack personal journal platform with public post pages, date filtering, and authenticated admin workspace.

Implemented end-to-end content management: TipTap rich-text editor with markdown support, image uploads with optimization, post CRUD operations, JWT token-based authentication, and Prisma ORM with PostgreSQL persistence.

IB History Paper 2 Practice

JavaScript · HTML · CSS · Vercel

Essay-practice platform for Bayview Secondary IB Class of 2026, organizing 73 past-paper questions across two HL History topics. Used by my IB cohort (~100 students).

Personal Portfolio

Next.js · React · TypeScript · Tailwind CSS · Vercel

Responsive personal portfolio showcasing technical projects, achievements, certifications, and professional links.

Implemented component-based architecture with React hooks, persistent light/dark theme toggle, structured OpenGraph metadata for SEO, image optimization, and Vercel deployment with automatic deployments from GitHub.

PhotoGit (Git for Photoshop) — work in progress · github.com/xingexu/photogit

AWARDS & CERTIFICATIONS

FBLA CNLC Coding & Programming: **1st Place (2024, 2025)** — individual, over 50+ teams

American Invitational Mathematics Examination (AIME) **Qualifier: 2024, 2025**

Waterloo Hypatia Mathematics Contest: **School Champion (2025)**

Google AI Professional

August 2026

Architecting Solutions on AWS

Building Data Lakes on AWS

Claude on Google Cloud

SKILLS

Languages: Java, Python, JavaScript, TypeScript, HTML/CSS, SQL. **Frameworks:** Next.js, React, Tailwind CSS, Node.js, Express, SwiftUI, Prisma ORM. **Tools:** Git, GitHub, Vercel, REST APIs, JWT, PostgreSQL.

Focus: Full-stack development, backend systems, product engineering
